MEMORANDUM FOR RECORD

SUBJ: Critical Incident Stress Management (CISM)

This Memorandum for Record (MFR) shall serve as confirmation that the Mississippi Wing (MSWG) has conducted a CISM assessment and I have determined that we do not have the professional medical personnel and resources necessary to field a qualified CISM Team. Should we subsequently require CISM team personnel assistance, the MSWG shall coordinate with National Operations Center or the Chief of CISM and Resiliency or the Southeast Region Headquarters CISM and Resiliency Officer. MSWG will periodically review our capability with the long-term goal of fielding a CISM Team.

A handwritten signature in cursive script, reading "Robert P. Mims".

Robert P. Mims, Colonel, CAP
Commander
